JAN	PETS	Any domestic pet - two, four, six or eight legged or no legs (snakes included), not common insects or garden birds.	NO	both
FEB	TOYS	Children's toy (not toys for boys).	Permitted	colour
MAR	PANNING	Technique: Panning photography is a technique in photography that uses a slow shutter speed while moving your camera along to create motion blur in the background. With the right technique, you can create a relatively sharp subject combined with a background that features motion blur for a stunning photograph.	NO	Both
APR	WATER	Any water, natural or not. Drops, splashes, pours, rivers, waves.	Permitted	Colour
MAY	Multi Exposure	Technique: In photography a multiple exposure is the superimposition of two or more exposures to create a single image, and double exposure has a corresponding meaning in respect of two images. The exposure values may or may not be identical to each other. This is easily done on most editing software	Permitted	Colour
JUN	ABSTRACT	Abstract Photography is one of the best ways to start out in photography. Abstract photography goes against many photography rules. It gives you the freedom to take a photo of anything that grabs your attention and allows you to express your artistic nature.	Permitted	Both
JUL	Night Photography	Technique: Night photography (also called nighttime photography) refers to the activity of capturing images outdoors at night, between dusk and dawn. Lighting and/or light painting may be used.	NO	both
AUG	FOOD	Still life photograph of food or food product photography	Permitted	colour
SEP	FOCUS STACKING	Technique: Focus stacking is a digital image processing technique which combines multiple images taken at different focus distances to give a resulting image with a greater depth of field than any of the individual source images. This is easily done on most software programmes.	Permitted	colour
OCT	STRUCTURES	A building or other object constructed from several parts. So it can be anything from a bee hive to a dog kennel to a hut to a skyscraper. The full structure must reflect in the image	No	colour
NOV	MONOCHROME - COLOUR	The definition of monochrome is an image of single colour or different shades of a single color. The entire image is recorded and represented by differing amounts of light instead of different hues. This is not typically black and white or grey photography for example, a pink cup on a pink background.	NO	single colour
